10, 11, 12 August Shooter Course- OPEN

\*For any and all specific inquiries about tailoring training dates around your schedule, please call. We will schedule training for individuals who call in for specific training dates with a class of at least 4 shooters or group sections.

### **TRAINING**

The unique topography of our training areas nearly duplicates the important operational challenges of the current hot spots confronting our forces. From our extreme long flat desert ranges and terrain, to our mountain pass facility at over 8,000 feet, CheyTac training delivers real world answers to the most difficult challenges. Shooting ranges of 3000yds are obtainable. All training integrates the ABC (Advanced Ballistic Computer) and its various data collection and input devices to functioning of the. 408 CheyTac Intervention System.

### **COURSE DESCRIPTION**

This 3 day course is designed for both beginning and advanced level operators (Shooter 1 & 2 courses) in the use of precision scoped rifle. All scheduled courses are Shooter 1 (beginner level). Special packages can be negotiated and Shooter 2 courses set up bases on your needs. This course is open to Civilians, Law Enforcement Officials, Military, and Government Agencies.
